

When you look at the people of your church...

Are you aware how many of them:

- believe their faith has grown in the last 12 months?
- don't really feel they belong in this church community?
- are committed to the church's vision?
- are willing to try something new in the church?
- reach out and help people in informal ways?
- have invited someone to church lately?

Would you like to know:

- what the people value most highly about your church?
- what areas they'd like to see the church develop in the next 12 months?
- what leadership qualities your church attenders can contribute?

When you consider the areas of church life that make for growth and vitality

faith, worship & belonging,
vision, leadership & innovation,
service, faith sharing & inclusivity,

in what areas is your church strongest and where can you grow?

NCLS can help you use all this information to effectively build the growth and vitality of your church.

The National Church Life Survey is on in 2011. Once in five years you get the chance to *be involved, be equipped and lead effectively* into the future.

For information on how to participate, visit www.2011ncls.org.au or contact NCLS Research.
